**Privately Held**  
Ownership

**Est. 2026**  
Founded

## COMPANY OVERVIEW

A holding company built for the long term.

Horizon Tech Holdings, Inc. is a privately held technology holding company founded to incubate, own, and scale technology ventures across healthcare and adjacent sectors in the Caribbean and Latin America. We take a patient, operator-led approach, with a preference for depth over breadth and foundational systems over trends.

Our corporate structure is designed for permanence. Horizon Labs LLC holds all intellectual property and core systems. Operating subsidiaries are launched only when markets are ready, formed only when markets are ready. Every venture is built to last, not to exit.

## CORPORATE STRUCTURE

Built to protect IP and scale across borders.

**Horizon Tech Holdings, Inc.** · Delaware C-Corp · Parent entity

Owns all subsidiaries. Primary equity and governance entity. Investor entry point.

**Horizon Labs LLC** · IP Holding Entity · Wholly Owned

Owns all source code, domains, trademarks, and proprietary systems. Licenses IP to operating subsidiaries. Collects royalty fees.

**Operating Subsidiaries** · Guyana / Caribbean

Formed only when operations require them. License all IP from Horizon Labs. Each subsidiary is isolated. Liability does not cross entities.

## PORTFOLIO

Three ventures. One infrastructure layer.

01 **MedLink GY** · Healthcare SaaS · Guyana **[ ACTIVE, PILOT ]**

A dual-sided healthcare platform connecting patients to private clinics across Guyana. Patient app for physician discovery and appointment booking, paired with a clinic operations portal. 1,494 practitioners integrated from the Medical Council of Guyana registry across 52 medical specialties.

02 **Fleet & Dispatch Technology** · Logistics · Emerging Markets **[ IN DEVELOPMENT ]**

A fleet and dispatch management platform targeting logistics operators in emerging markets. Built on the same core infrastructure as MedLink GY. Category disclosed, brand name announced at launch.

03 **Fintech & Payments Infrastructure** · Fintech · Caribbean **[ PLANNED ]**

Payments and financial access infrastructure designed for the Caribbean and Latin American market. Specialized regulatory counsel engaged. Category disclosed, brand name announced at launch.

---

## INVESTMENT THESIS

### Why this market. Why now.

The Caribbean and Latin American market represents a generational opportunity in digital infrastructure. Healthcare, logistics, and financial services in these markets operate on legacy systems, or no systems at all. The structural gap is large, the competitive density is low, and the willingness to pay for meaningful solutions is proven.

Horizon Tech Holdings enters as an operator, not an investor. Every venture is built internally with direct market knowledge. MedLink GY is the first proof point. MedLink GY has 1,494 practitioners already integrated before the first paid clinic is onboarded. The pipeline is validated, not speculative.

---

## HOW WE OPERATE

### 01 Operator-Led

Every venture has hands-on leadership that understands both the technology and the market context. We do not fund from a distance.

### 03 Infrastructure First

We build the foundational systems that make other things possible, before we build anything surface-level.

### 05 Selective by Design

Fewer opportunities pursued with greater conviction. Discipline in selection is the foundation of quality execution.

### 02 Patient Capital

We prefer durable outcomes over fast exits. Ventures are built to compound value over years, not quarters.

### 04 IP Owned Centrally

All intellectual property lives in Horizon Labs LLC. Every product is licensed, never given away. The core is always protected.

### 06 Long-Term Orientation

We are not optimizing for the next funding round. We are building institutions that outlast market cycles.
